Wheat Rules Steady at Decline on Lower ablea.

WEEK'S FEATURE IS AMERICAN EXPORTS

Weather Unsettled in Argenting-Liverpool Cable Says Corn Crop in Southeastern Europe is Larger Than Anticipated.

Wheat rules steady at a slight decline, which started on lower Liverpool cables and bearish local sentiment. The market was characteristic of Saturday sessions. A private cable from Rosario reported unsettled weather in Argentina. Another feature which attracted attention was the estimate of 11,200,000 busnels for the world's shipments for the week. Deducting Bradstreet's clearances from this leaves but 5,000,000 busnels contributed by other exporting countries. Spring wheat receipts under-ran last year by 120 cars and Winnipeg was short 160 cars. December closed at \$550. May at \$95,635% and July at \$45.20. OMAHA, Nov. 4, 1906.

64%c. Corn was dull, but steady, with a dip early in the session. The morning's map showed fair weather throughout the beit. Liverpool reported the crop in southeastern Europe turning out better than expected and it is thought that the prohibition of exports will be removed early next year. December closed at 46c, eld December at 464,046%cc, May at 464c and July at 464.046%cc.

461-26-66-c. May at 461-2c and July at 461-26-66-c.

Cats were quiet on a light trade. The buil position is not changed in any important detail. December closed at 302-80-14c. May at 251-2c and July at 311-2c.

Primary wheat receipts were 1,106,000 bushels and shipments 373,000 bushels against receipts last year of 1,065,000 bushels and shipments of 370,000 bushels. Corn receipts were 456,000 bushels. Trade of 220,000 bushels, against receipts last year of 220,000 bushels and shipments of 520,000 bushels and shipments of corn, 179,000 bushels of cots, wheat and flour equal to 348,000 bushels.

Liverpool closed 1425-46 lower on wheat and unchanged to 440 higher on corn.

Broomhail estimates the world's wheat shipments for Monday at 11,200,000 bushels, and those of a year ago 13,040,000 bushels, and those of a year ago 13,040,000 bushels.

High prices were paid for corn in all posi-High prices were paid for corn in all posi-tions at the seaboard and at western ship-ping points yesterday. Spot at New York was equal to 53%c at Chicago. Other Chi-cago equivalents were 40c to load November 3. 47c to load December 1s, 45c to load Jan-uary 27. Peoria offered corn for next week's shipment equal to 47%c Chicago.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO. Nov. 4.—Lower prices for wheat at Liverpool had a weakening effect today on the market here. At the close wheat for May delivery was off %c. Corn, oats and provisions are practically unchanged.

The wheat market was inclined to weakness the entire day. At the opening the May option was off 42% to 162% at 18% 28% c. December was down 46% at the opening the May option was off 42% to 162% at 18% 68% c. The nitial decline followed cable-grams telling of a weak feeling manifested in the wheat market at Liverpool. There was little in the way of news here to create interest. As a result the volume of trading for the day was small. Commission houses were the principal seliers early in the session. A leading bull was credited with moderate sales of the December delivery. Throughout the sessions prices fluctuated within a range of %c. For May the lowest point of the day was reached at 89% c. December sold off to 88%. During the last few minutes of trading there was a slight spurt on the reported chartering of vessels here to ship to Buffalo 250,000 bushels of No. 2 red winter wheat. The market, however, closed easy, with May at 89% 389% c. Final quotations on December were at 88% c. Clearances of wheat and flour were equal to 34,000 bushels, compared with 1,168,000 bushels a year ago. Minneapolia, Duluth and Chicago reported receipts of 76 cars, against 8% cars last week and 786 a year ago.

Weakness of wheat had a depressing ef-

and Chicago reported receipts of 776 cars, against \$84 cars last week and 786 a year ago.

Weakness of wheat had a depressing effect on the corn market early in the session. Slight declines occurred on moderate selling by commission houses. Later, however, the loss was all regained on demand from bull leaders. A temporary lull in export demand was a bearish influence. Reports of damage by wet weather had a strengthening effect. The market closed steady, with prices at about the highest point of the day. December opened 4c lower at 45%c, sold between 45%c and 46% 46%c and closed at 48c. May ranged between 46%c and 46% 46%c and closed at 48c. May ranged between 46%c and elegible were 290 cars, with 12 of contract grade.

Sentiment in the oats pit was bearish as a result of the weakness of wheat. The volume of trading was very small, buying being confined chiefly to pit traders. Cash and export demand showed signs of shatement. December opened 46%c lower at 30c, sold up to 30%c and closed at 30530%c. Local receipts were 271 cars.

Provisions were gasier on selling of lard by a leading packer. Predictions of a liberal run of hogs for next week caused somewhat of a bearish feeling among pit traders. At the close May pork was unchanged at \$12.67%. Lard was of 34c at \$6.36. Ribs were down a shade at \$2.70%.

Estimated receipts for Monday: Wheat, 234 cars; corn, 236 cars; oats, 436 cars; hogs, 37,000 head.

S. see 128% do file NEW YORK, Nov. 4.—The bank statement today, for the first time in many weeks, agreed with preliminary estimates based on the known movement of money and on other factors. For that reason apparently as much as for any other it came as a shock to speculative sentiment and citused a break in prices of stocks. The forces at work for the depletion of bank reserves were notorious during the week and the excited speculation of expansion of loans, but operators have come to rely on a modified part of the state of the stock market tags. The response in the bank statement to saye the appearance of the weekly statement on the stock market tags. The response in the banking situation was however, almost ignored today up to the time of the appearance of the weekly statement on the stock market tags. The response in the market was immediate and the closing tone was easy, after a slight raily caused by hasty profit-taking on the part of bears in the board room. The surplus reserve of the banks is out down by the week's operations \$10,076,650, bringing it to a meagre \$2,54,275. The heavy interior requirements for currency have reduced the cash in the banks some \$7,465,160, thus effectively dissipating the speculative hope that the turn in the interior currency movement had set in in favor of New York Vesterday's sharp rise in open market discounts at Berlin was followed today by an advance in the official rate of discount of the Imperial Bank of Germany from \$4 per cent to 5 per cent, and there was a sharp drop in sterling exchange at Berlin, further marking the pressure and contained to the imperial sharp in the same open market the turn in the interior currency movement had set in in favor of New York Vesterday's sharp rise in open market the turn did of the shark week in turn of the time of the shark and the contained to the shark and the con

Reading was under pressure and sold at one time 4 points below last night, closing only a fraction above the lowest. The loan expansion by the banks of \$16,645,000 was attributed for the most part to the speculation of the week in the stock market, and bankers made little disguise of their satisfaction with the check administered to the stock market movement.

Heir to the Fame of the Comstocks BULLFROG EXTENSION MINING CO. Bullfrog, Nevada

"THE MINE THAT MADE BULLFROG FAMOUS" VALUE OF 500 SHARES, SEPT. 1, \$100 VALUE OF 500 SHARES, OCT. 1, \$150

VALUE OF 500 SHARES, TODAY, \$175 PRICE WILL BE ADVANCED TO \$200 PER 500 SHARES NOVEMBER 25.

PROBABLE VALUE, JANUARY 1, \$500 THERE'S A CONVINCING REASON-WRITE OR WIRE FOR IT.

Yours for the asking are: (1) Exhaustive, corroborate reports of two world-famous mining engineers. They pronouce the Bullfrog Extension property the marvel gold mine of the entire Nevada mineral belt. They concede it more than a chance to outrival the greatest of the Comstocks.

(2) A prospectus that tells you all about gold mining history; all

about mining stock speculation; all about the incorporation of the Bullfrog Extension Mining Company, and everything you would want to know about the manner in which the property is being developed. (3) Press clippings from the nation's representative newspapers that have correspondents on the spot, who have reported the sensational discoveries of the Builfrog Extension mines as pure news matter of interest to the whole civilized world.

DEBENTURE SURETY CO. SAN FRANCISCO, CAL.

DRUIDING'S FINANCIAL REVIEW

For the information of parties who may be interested in speculative securities we have made arrangements with Mr. F. G. Druiding of Chicago, an expert writer on financial topics and delineator of stock exchange probabilities, to furnish a weekly review of the salient features of current financial topics gleaned from the various exchanges.

We desire, however, on the part of The Bee to disclaim all responsibility for the accurateness of any forecast Mr. Druiding may make concerning future prospects of any investment or enterprise.

All special inquiries about the present or prospective value of any particular security should be addressed direct to Mr. F. G. Druiding, No. 524 First National bank building, Chicago, Ill.

CHICAGO, Nov. 3.—(Special.)—The sensational developments in Reading are held by most of the able traders to be a spectacular bombardment, under cover of which many prominent manipulators have attempted to unload their securities. After the most systematic efforts and the wilders and wilders and wilders and wilders and the situation in the pig iron market is expressed very fully by processing the intention of selling any of it at present pices. Steel common will the remotest intention of selling any of it at present pices. Steel common will the remotest intention of selling any of it at present pices. Steel common will the remotest intention of selling any of it at present pices. Steel common will the remotest intention of selling and it is foolish to contemplate selling it below 90. It is a cinch so far as anything can be a cinch in the stock, market. Steel preferred at present pices is absurdly low. There is no industry that is getting more out of the present properity than the Steel in-the steel in the stock, market. Steel preferred at present properity than the Steel in the stock, market. Steel preferred at present properity than the Steel in the stock, market. Steel preferred at a cinch so far as anything can be a cinch in the resonance present pices.

Another prominent steel authority has thi
